

#990 ETERNALASTIC EPDM RINSEABLE PRIMER PRETREATMENT FOR ETERNALASTIC COATING

TROPICAL ROOFING PRODUCTS' #990 Eternalastic EPDM Rinseable Primer is a low viscosity, sprayable liquid used to pre-treat black EPDM rubber roof membrane prior to power washing and application of Eternalastic. The unique chemistry of Eternalastic EPDM Rinseable Primer is designed for use with Eternalastic Coating, and pre-treatment with Eternalastic EPDM Rinseable Primer significantly improves the adhesion of Eternalastic to a EPDM rubber.

PREPARATION: Surface to be repaired or coated must be clean, dry, and free of dust and dirt. Apply the #990 Rinseable Primer at the rate of one gallon per 500 sq. ft. #990 Rinseable Primer should be applied with a conventional compressive air sprayer/Hudson sprayer. The EPDM substrate must next be pressure washed with water at the rate of 2500 psi to remove remaining dust and dirt. #990 Rinseable Primer is mandatory for maximum adhesion. Any residue of the #990 Rinseable Primer left on the EPDM will have disastrous adhesion results. Therefore, a complete second rinse is essential. The visual appearance of the EPDM will be jet black in color.

APPLICATION: Apply with conventional compressive air sprayer

COVERAGE: Approximately one gallon per 500 square feet

PRECAUTIONS: Keep away from heat, sparks, and open flame. In interior areas provide for proper ventilation or respiratory equipment. Use proper safety equipment.

WARNING: Avoid breathing fumes and prolonged contact with skin. Do not take internally. **DANGER!** Harmful or fatal if swallowed. Do not induce vomiting. Call a physician immediately. Keep container covered when not in use. Do not thin. **DO NOT HEAT CONTAINER** or store at temperatures greater than 120°F. Be sure lid is tight and pail is secure when transporting this product. Do not allow pail to tumble as this may loosen the lid and allow leakage to occur.

CAUTION!

KEEP OUT OF REACH OF CHILDREN. Close container after each use. DO NOT TAKE INTERNALLY! If swallowed, do not induce vomiting. CALL PHYSICIAN IMMEDIATELY!

PHYSICAL PROPERTIES

Appearance: Clear liquid
Odor: Mild
Density (WPG): 8.46

Color: Pink
PH: 13-13.5
Solubility in water: Completely soluble

MAXIMUM V.O.C = 0 G/L
